Aman Jangid
React Native Developer

Experienced React Native Developer with 3 years of expertise in building seamless, cross-platform mobile applications. Proficient in React Native, JavaScript, React.js, HTML5, and Redux, I specialize in developing intuitive, high-performance apps that enhance user experiences. Passionate about continuous learning and eager to explore new opportunities in JavaScript-based technologies.

Experience

GloCoach Mobile App (IOS and Android):
Ollosoft Technologies Private Limited l Mansarovar, Jaipur | (March 2024 - Present)
Developed the GloCoach mobile app to deliver a seamless, cross-platform experience for professional growth and coaching. The app leverages advanced technologies to provide personalized coaching, AI-driven insights, and performance analytics.

- Core Development: Built key functionalities to ensure a smooth and intuitive user experience for scheduling AI-powered assessments and connecting with expert coaches.
- State Management: Implemented Redux for efficient and consistent state management across the application.
- Firebase Integration: Integrated @react-native-firebase/analytics and @react-native-firebase/crashlytics to monitor user behavior, track performance, and swiftly resolve issues.
- Enhanced Engagement: Increased user interaction through push notifications and interactive media features.

Outcome: Empowered professionals with AI-driven coaching, actionable insights, and structured development plans to support continuous learning and career growth.

Boatflex App (IOS and Android):
Sumedha Softech (SSPL) l Vaishali Nagar, Jaipur
Developed the Boatflex mobile app to simplify and enhance the boat rental experience for users in Denmark. The app offers a seamless, user-friendly interface with robust features for effortless boat bookings.

- Core Development: Designed and implemented key functionalities to ensure a smooth and intuitive boat booking experience.
- State Management: Utilized Redux for efficient state management, ensuring consistent and reliable data handling across the application.
- Firebase Integration: Integrated @react-native-firebase/analytics and @react-native-firebase/crashlytics to monitor user behavior, optimize performance, and quickly resolve issues.
- Enhanced Engagement: Increased user interaction through push notifications and interactive media features.

Outcome: Boatflex has become a trusted and efficient platform for boat rentals, delivering a seamless booking experience while leveraging advanced analytics and crash management for app reliability.

Jublo App (iOS and Android)
Sumedha Softech (SSPL) l Vaishali Nagar, Jaipur
Developed the Jublo app, a seamless online marketplace connecting users with home service professionals.

- Service Booking: Simplifies booking for electricians, craftsmen, and other home service providers.
- Technology Stack: Built with React Native for cross-platform functionality on iOS and Android.
- Type-Safe Development: Utilized TypeScript for a robust and maintainable codebase.
- State Management: Implemented Redux for efficient state handling and optimized performance.

Outcome: Jublo has become a trusted platform, streamlining home service bookings while enhancing provider outreach.

Developed the HKV App using React Native to enhance data management and guest experiences. Gained expertise in web and mobile development during my React-Native Internship.
